magna cum laude

Bachelor of Fine Arts: Costume Design
Royal Academy of Fine Arts
Antwerp
cum laude

introduction

I am Silke Debandt, a visual artist driven by a strong passion for activism and feminism. These themes hold immense significance in my artwork, as I strive to create a space for thought, discussion, and emotional exploration surrounding feminism and femininity. Every stitch and artistic expression aims to ignite conversations and challenge societal norms.

Alongside my artistic endeavors, I have had the privilege to work as an (assistant) costume designer on various theatre productions. This experience has allowed me to bring my keen attention to detail and imbue meaning into every aspect of the creative process.

I invite you to explore my portfolio on this website and immerse yourself in the captivating world I have created through my art. Feel free to reach out to me with any inquiries or to learn more about my work.
